About Me

I am a professional passionate about technology and education. I work as a Systems Analyst at PRODAP, where I develop and support governmental systems for the State of Amapá, in addition to building systems for private companies. I have experience in software development using frameworks such as Django, Laravel, FastAPI, Flutter, Spring Boot, and others. My goal is to contribute to digital transformation and to improving companies and governments through technology. I am resilient, eager to learn and adapt quickly, value strong teamwork, and have a sense of responsibility and leadership, with the ability to perform well under pressure.

Skills

Traits Hardworking, Resilient, Patient, and Dedicated

Experience Linux, Docker, PHP, Laravel, Python, FastAPI, Django, Flutter, Java, HTML, CSS, .NET, React, Ruby, Delphi, Quarkus, SQL, Git, Portainer, BI, Dashboards, MikroTik, and other technologies
